## TWO MORE LOST Beds

### Russia Loses Two More Destroyers

### ASKOLD AND NOSEPI TO BE DISARMED

### Russian Reports of Japanese Losses in Unsuccessful Attacks on Port Arthur's Defences

#### TWO RUSSIAN DESTROYERS LOST.

Tokio, August 25.—Two Russian torpedo boat destroyers struck mines at the entrance of the harbor last evening. The larger one of the destroyers, a four funnelled one, was sunk. The names of the vessels and number of lives lost are unknown.

#### WILL BE DISARMED.

Shanghai, August 25.—It is officially stated that the cruiser Askold and the torpedo boat destroyer Nosopi will be disarmed.

#### RUSSIAN REPORTS OF JAPANESE LOSSES.

Chefoo, August 25.—Russian, advices received here say that the Japanese assaults on Port Arthur on August 21st and 22nd, were repulsed with tremendous losses. It is added that the attempt of the Japanese to capture Fort No. 1 cost them 1,000 men, and their attack on Fort Etesschan resulted in their losing 3,000 men killed or wounded. Port Dalny is said to be filled with wounded men. The Japanese are hiring laborers here for service in the Liao Tung peninsula. It is reported that the Japanese are obtaining provisions through the port of Wei Hai Wei.

#### EDMONTON HIGH SCHOOL

Edmonton High School opens on Monday, August 29th. Valuable additions have been made to the Chemical and Physical equipment, which makes the general equipment of the school the best in the Territories. No other school in the Territories has a larger staff of teachers, and all certificate, as well as matriculation work, is taught. When languages are taken, standard eight examination from the Edmonton high school is accepted by the universities of Toronto and Manitoba as first year university standing. The requirement for entrance to the high school is the public school leaving examination; but students who have not taken this examination will be admitted on passing an examination prescribed by the principal. Students may enter the school at any time of the year.

The high school course embraces the work prescribed by the Education Department of the Northwest Territories for standards VI, VII, and VIII, and leads to first, second and third class teachers' non-professional certificates; junior and senior matriculation; a general or business education.

The subjects prescribed for standard VI, class III, non-professional, are: Reading from standard authors, English Literature, English Grammar, and Rhetoric, Composition, British and Canadian History, Geography, Arithmetic and Mensuration, Algebra, Geometry, Botany and Agriculture, Drawing, Physical Science, Book-keeping, Latin, French and German.

The subjects of standard VII, class II, non-professional, are: Reading from standard authors, English Literature, Grammar and Rhetoric, Composition, History, ancient, medieval and modern, Physical Geography, Algebra, Geometry, Chemistry, Animal Life, Drawing, Latin, French and German. A standard VII diploma, when the languages have been taken, is accepted as junior matriculation standing by the leading Canadian universities, and

also by the schools of law and medicine.

The subjects of standard VIII, class I, non-professional, are: Reading from standard authors, English Literature, English Language and Rhetoric, Composition, Constitutional and Industrial History, Algebra, Trigonometry, Physical Science, Latin, French, German. A standard VIII diploma, when the languages have been taken, is accepted by the universities as senior matriculation, or first year standing.

The work of the school is carried on in a substantial brick building on College avenue. In addition to the regular class rooms, there is a well equipped laboratory, containing all the appliances and apparatus necessary for the teaching of Science. There is also a library for the use of students.

The following is the record of the school at the Departmental examinations during the past three years:

In 1902, two obtained first class certificates, nine second class certificates.

In 1903, five obtained first class certificates, nine second, eleven third, and one senior matriculation.

In 1904 five obtained first class certificates, nine second, eighteen third, and one senior matriculation, and two junior matriculation.

In addition to those who are preparing for teaching or matriculation many students attend the high school to receive a general or commercial education.

On the high school staff there are three teachers, all of whom are university graduates, and specialists in their several departments. There is only one other school in the Territories that has as large a staff devoted exclusively to high school work. The staff consists of William Bea, B.A., Principal, English and modern languages, Geo. E. Ellis, B.A., mathematics and science, and R. H. Johnston, B.A., classics and history.

No fees are charged for attendance at the high school.

Further information regarding the work of the school, securing a boarding house, etc., will be readily furnished on application to the principal.

## THE PEACE RIVER DISTRICT

Canadian Northern Prospecting Party Eulogize the Country.  
Abundance of Farming Coal and Timber Lands. The  
Younger Macoun's Report on the Country Repudiated

On the 20th of May last W. C. King and party left Edmonton for the Peace River country. He was sent north by the Canadian Northern railway company, who wished to get a reliable and up-to-date report on the productiveness of the soil and the agricultural possibilities of this famous tract of country. At noon yesterday Mr. King returned to Edmonton with his party, having spent upwards of three months in exploring the Peace River country. Mr. King speaks with authority from an experience gained by a close examination of the country. He is very enthusiastic regarding the natural resources of the district, and freely expresses with assurance, his firm conviction that the outlook for the country is most promising and its prospects most bright.

Leaving Edmonton on May 20th, the party took the Swan Hill trail for the far northwest. This trail and in fact all the trails passed over are in exceptionally fine shape. From this trail Pruden's trail was taken to Spirit River. From Spirit river the party travelled to Grand Prairie, thence to Cut Thumb Creek, and Moberley's lake and into the Omnipia country. The return trip was made by the north side of Peace River, via Lesser Slave Lake.

There is an abundance of first-class farming land and in places good timber land. Scattered timber is plentiful in the farming districts. The Peace river country is one suitable for mixed farming and for small farmers. The country lies in a state of great natural wealth, awaiting settlers to cultivate it and make it bloom like the rose. It is, however, useless for settlers to go into this district at present. The country is first-class and has unlimited natural resources, but these now lie, and will of a necessity continue to lie, in a state of inactivity until a railroad will have been constructed to tap the country. Then, and not till then, will the country develop. The need of a railroad is most imperative. The best possible thing for the Peace River country as well as for all Canada would be immediate tapping of this district by railroad facilities.

The weather during the trip was fine and dry. The temperature during the whole summer was a little lower than in recent years. The rainfall was perhaps under the average, but the heavy dews overcame any difficulty in the score of lack of rain. There was absolutely no frost nor any sign of frost up to the time of Mr. King's leaving the district.

The country is an open one with

practically unlimited agricultural possibilities. The grass in all parts of the country traversed was especially good, being long and green, a choice article for feeding cattle. Where attempts were being made at growing grain, the samples were of a first-class order. Garden vegetables showed great growth. Mr. King has with him a tomato picked from vines growing in the open at Lesser Slave lake. He also has with him splendid samples of grains, oats, wheat, barley, etc. which besides showing great growth are far advanced for the season when they were pulled. Mr. King thinks that many of the samples which he has with him would compare very favorably with, if not outrival, any of the Edmonton district crops, which is saying a great deal.

Besides grain Mr. King has with him numerous samples of minerals, taken in the course of the journey. A couple of splendid samples of gold bearing quartz from the northern rivers are shown. Particularly good samples of semi-anthracite coal are among his collection. The whole country is full of coal. In places in river valleys where the ground has been washed away, whole areas of splendid coal are to be seen. The veins are four feet thick and are perfectly free from all foreign substances. The coal rests on a layer of slate shale and where it is embedded, sandstone covers it.

North of the Athabasca are sandy ridges covered with first-class timber limits. Here is to be found Jack-pine of a very marketable size in great abundance.

Mr. King and party journeyed through both the Pine River and the Peace River passes. He knows the country like a book and a better person could scarcely have been secured to report on the Peace river district. Mr. King was a Hudson Bay factor in that district over thirty years ago. Mr. King is well acquainted with the elder Macoun, as he is with his son, who gave the Peace river country such a black eye in his recently published report. Mr. Macoun had gone to the Peace river country in a worried and troublesome state of mind and in that condition was apt to look on the darker side of things. He also used the river a great deal in travelling through the country and listened to a few grumblers instead of closely investigating actual conditions for himself.

A collection of views taken by Mr. King while on his trip are most interesting and bear out all that Mr. King claims for that great country.

### LAND SEEKERS IN EDMONTON

H. A. Moore, of Dunlap, Iowa, Hector Bradford, Jas. W. McLaren, and Geo. H. Williams, of Snowflake, Iowa, J. P. Condo, of Moccasin, Ill., J. P. Moore, of Mulberry, Ind., and J. Straub, of Sacramento, Cal., are a number of American land seekers that arrived in Edmonton yesterday evening. The individual members have spent some time in investigating farming conditions along the Calgary and Edmonton line. Mr. Condo, who is the head of a large mercantile firm in Moccasin, Ill., left again this morning, the few days at his disposal not permitting him of a longer stop-over in Edmonton, as he would have desired from the little he saw of the city last night, and the crops in the immediate vicinity, and he is greatly impressed. He expressed his surprise that Edmonton has grown to its present proportions without rail-

way facilities. The future of the city is now certainly bright, with the C.N.R. and the G.T.P., and perhaps the C.P.R. entering. Mr. Condo is very pleased that he made the trip up the line, and states that he will spread abroad a good word for the district on his return home. Great interest is taken in that section of country in Western Canada, and particularly the Edmonton district.

The rest of the party are principally land seekers who will spend from one to three or four days in the district. As far as they have yet seen they are delighted with the town and the country. Mr. Moore, of Mulberry, Ind., will visit the country one hundred miles east of Edmonton, and if possible, will visit the country well. He has a family of seven, and was particularly anxious to ascertain the efficiency of the Northwest Territorial school system.

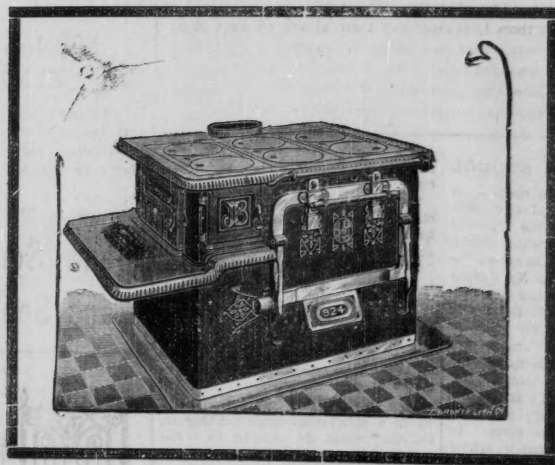

## Ross Bros. Ltd.

### Just a Few Words About Stoves and Ranges

ROSS BROS., Limited would like to call the attention of the public in general to their stock of Steel and Cast Ranges. These Ranges are selected from among the best makers on the Continent and every stove they sell is fully

### Guaranteed

Further than this, there is no Stove or Range made that will not in time require to have some parts renewed no matter what dealers may say to the contrary and when such parts are to be renewed you would like to get them without any unnecessary delay or trouble. If you buy from your local dealers you will have their best attention not only in respect to any guarantee they may give but also in any parts you may want in the future.

Now Ross Bros., Limited are close in touch with what is wanted in this country and their stock of stoves and ranges are not only up-to-date but are selected with a special view to what is most needed here. Their prices are much below that of some prices being asked for other Steel Ranges and you will know where to find them when you want special parts when your stove has in time become an old one.

## THE STAND OF THE OPPOSITION

In a recent editorial the Winnipeg Tribune, which is strongly opposed to the present government and the Grand Trunk Pacific Railway project, says:

"It is said that the Grand Trunk Pacific People are very present upon an election. They have told the government that it will make things much easier for them in financial circles in England, if an appeal were made now, and the government was sustained on its policy. In the face of Mr. Borden's declaration for public ownership of the proposed line, capital is sure to be timorous in the old land. The government doubtless thinks it has a fair chance of carrying the country now, and it cannot tell what may happen before another year to interfere with the position of affairs."

There are several points in this short statement which it would be well for the people of the northwest to note in view of the bearing which the early construction of a competing transcontinental railway must have upon their welfare, and the bearing which the result of the coming elections must have on the construction of such a railway. The first is that the construction of the railway as agreed depends upon the government being sustained. The second is that the effect of Mr. Borden's pledge that if he obtained power his party would repudiate the Grand Trunk Pacific agreement is to make it difficult for the company to raise the money needed. The third is that Mr. Borden's alleged declaration for government ownership of a transcontinental railway is being used as a blind, to cover the opposition which himself and party and the Winnipeg Tribune as well, have put up against the proposal to give the west that railway development and competition without which it can never achieve the success of which nature has made it capable. In this connection it may be well to point out and emphasize the fact that neither Mr. Borden nor his party during the last session of parliament, nor at any other time ever became pledged to the construction of a competing transcontinental railway under government or any other ownership. He went so far as to say that if the people declared for a government owned transcontinental railway he and his party would be prepared to build it. But while he was saying that and ever since, his party organization has been flooding eastern Canada with printed arguments against the building of a transcontinental railway on account of its cost. The farmers of Ontario are being exhorted to vote against the bargain because it means mortgage on each of their farms. This may be a good way to impress a naturally conservative population in favor of a progressive project, but there are certainly better ways. In the face of such arguments submitted by the opposition party to the voters of Eastern Canada, the return of that party to power could only mean a condemnation of the project to build a trans-

continental railway. For if the people vote against the cost of the railway, they necessarily vote against the railway.

It could only mean the endorsement of the party and policy of railway monopoly in the west.

## THE CONFEDERATE SPY

The American military drama, the Confederate Spy, will be produced at the Theatre Rink Auditorium in the early part of October by local talent, some of the best of which has been secured. This play is one of the grand army republic dramas, and is placed at the time of the war between the North and the south, the blue and the grey, and the theatre-going public of Edmonton will have an opportunity of seeing one of the best military dramas produced. There is some splendid music in the play, including marches, and the Apollo Orchestra has been secured for this service.

Two Mummified tableaux are being arranged by C. P. Kidman, who will have charge of all the stage effects. The play will be under the direction of Arthur B. Hopkins.

The next rehearsal of this drama will be this Friday evening at 8 p.m. sharp. All those taking part are requested to be in attendance at the Theatre Rink Auditorium.

## A Ton of Gold

Yukon World, Aug. 7th.

Nearly a ton of gold dust was shipped to the assay office at Seattle via the Whitehorse last night, the actual weight of the three boxes being over 1800 pounds. Two of the boxes containing gold bricks to the value of nearly \$300,000 were shipped by the Canadian Bank of Commerce, the third holding half as much by the Bank of British North America.

## Machinery in the Yukon

As showing the progress of scientific mining in the Yukon, the Dawson World, of August 13th, has the following: "In his annual report of boiler inspections and engineers' certificates, Louis E. Miller, Territorial boiler inspector, gives the number of boilers in use in the Klondike, including Miller and Glacier creeks as 513. The report covers a period of twelve months, concluding June 30th, 1904.

## Accident at Regina

Standard, August 19th: John Pachnie, who has been night engineer in the electric light works, met with a serious accident early Thursday morning, and as a result now lies in a critical condition in the Victoria Hospital. The cause of the accident will remain unexplained until the recovery of the victim, as there was not one present other than himself at the time. The facts so far as can be learned are about as follows: About 2:30 on Thursday evening the lights all over the city became exceedingly bright, and Pachnie apparently went about to adjust trappers when he got entangled in the engine and received a severe scalp wound. From this on the lights kept getting dimmer and till at length they went out altogether of their own accord, his steam had run down—this is evident from the fact that nothing was turned off when the day man went to work in the morning. Blood was discovered in various parts of the building, and his cap, full of blood, was found in the boiler room. When the victim was discovered he was lying in a pit some feet underground.

## The Transcontinental

Toronto News:

Now that the construction work of the Grand Trunk Pacific is about to begin, it may be as well for the public to grasp firmly the peculiarities in the nomenclature of its subdivisions. The two halves of the transcontinental system are officially styled divisions. The Eastern division is that

portion from Winnipeg eastward to be built by the government. The Western division, from Winnipeg to the Pacific coast, is to be constructed by the Grand Trunk Pacific. The Western division again is to be subdivided into two sections, Prairie and Mountain, as they are styled in the Act and the contract. For all practical purposes, it may be added, the Eastern division will fall into two sections, that from Winnipeg to Quebec, which is the real trunk line, and the extension from Quebec to Montreal, which in reality is an afterthought. The nature of the country to be traversed differs widely in these two portions of the road, and the commercial and transportation problems connected with their operation probably will present striking variations.

Remember that this is the trunk line which is to be our great effort to direct Canadian trade into national channels, and to build up Canadian seaports. The problem of the west—vast, complex, fraught with the future of Canada—hangs on the soundness or unsoundness of the execution of the line, though heavily burdened scheme of communication projected by the government. The future of New Ontario and New Quebec to no small extent is bound up in the location of the line which will open up the vast regions north of the height of land. The access of the factories of Ontario and Quebec to the prairies depends for its ease and freedom upon the route chosen. Canada is tying her energies and her resources for the next decade to this great enterprise. If it is carried through with skill and sound judgment, our future should be bright. If it is mismanaged, the reaction will be severe.

## G. T. P. RAILWAY OFFICIALS

Visit All Parts of the District Immediately Tributary to Edmonton. Delighted With the Appearance and Productiveness of the District and the Progress of the City

The directors and officers of the Grand Trunk Pacific railway who are in the course of their trip through the West, spent yesterday afternoon in seeing Edmonton and vicinity.

At two o'clock conveyances were on hand to drive the party through the adjoining district. In order to cover the country thoroughly the visitors were divided into groups, and each group was taken in charge by different citizens, who drove them into different sections of the country.

In Dr. Roy's party were Mr. Wainwright, second vice-president of the G.T.P.; Hon. S. N. Parent, premier of Quebec; W. H. Biggar, K.C., assistant chief counsel of the G.T.P.; L. A. Cannon, minister, Quebec; a son-in-law of the Hon. Chas. Fitzpatrick. They drove to St. Albert, and after visiting the mission took a short drive in the immediate vicinity of the village. After returning to town a short drive was taken around the city.

Senator Geo. A. Cox and E. R. Woode, directors of the G.T.P., and Joseph Hobson, chief engineer of the G.T.R. Co., composed the party that were driven by T. M. Turnbull. They visited the Sturgeon district.

Messrs. McNeil and Jones, who have been in charge of the work of the G.T.P. in this district, were accompanied by W. J. Pace and J. H. Peadar. They drove out the Fort Saskatchewan trail.

In E. D. Gibson's party were J. H. Bacon, harbour engineer of the G.T.P.; G. A. McNeil, secretary to Mr. Moore. They drove north to the Sturgeon, then east five miles, thence back to the half-way house, and into town. This took in about thirty miles of country.

Mayor Smith's party drove to Fort Saskatchewan, going by way of the south side and returning on the north side. This was the longest drive taken by any of the members of the party, being about forty-five miles. The party was composed of Chas. M. Hayes, President of the G.T.P. Ry. Co. and Hugh A. Allan.

A party driven by Frank Oliver, M.P. visited the Stoney Plain district. It was composed of the following: Frank W. McNeil, vice-president of the G.T.P. Ry. Co.; J. R. Stephens, assistant chief engineer of the G.T.P. Ry. Co.; H. A. Woods, engineer western G.T.

Ty., and F. N. Hoffman, President of the Pressed Steel Car Co., of New York.

Without an exception the visitors expressed themselves as delighted with the country. The old settled appearance which the Edmonton district presents was remarked on by the more observant. All parts of the country were carefully covered and the visitors had every opportunity to make a thorough examination of the district. The day was delightful, one of the days that has given Sunny Alberta its name. The crops are in splendid shape. In every locality the harvest was seen in different stages of advancement. Hay stacks dotted the country, barley was in stock, wheat was being cut and oats were ripening rapidly. The trip through the district was an eye-opener to the visitors. They were prepared to see evidences of growth and prosperity, but acknowledged having no idea that Edmonton and district was so fair to see and so immensely wealthy in natural resources. The cheap fuel right to hand appealed to them strongly. The crops were pronounced to be better and further advanced than those passed through in other sections of the west. After returning from his drive to Fort Saskatchewan, President Hayes turning to Senator Cox, stated that he was completely and agreeably surprised with the evident resources and productiveness of the districts visited, observing at the same time that never before had a drive been more replete with pleasant surprises for him.

Several of the party took photographs of specially fine fields of grain passed through. This morning President Chas. M. Hayes Vice-President Frank W. Morse and J. R. Stephens, assistant chief engineer of the Grand Trunk Pacific railway visited the local offices of the company and looked over the town generally, on foot. Senator Geo. A. Cox attended to business at the local branch of the bank of Commerce, of which he is president. The rest of the party were driven about the city for an hour after which rigs from Strathcona met the party and, taking them across the river, drove about Strathcona and vicinity until the train left at about 12.30 o'clock.

## Omineca.

Special Correspondence Victoria Col. onist:

There has been a slight influx of prospectors into the Omineca district this year. Owing to a rather backward spring there has been little or no high water, which will affect the output considerably this season. Good reports have come in from Tom and Vital creeks, but the prospect on Manson creek is not very good. Mr. C. F. Newberry, who is well known in Atlin mining circles, secured an option on C. McKinnon's claim on Lost creek and with his partner, Mr. E. C. Child, is reported to be doing fairly well.

Two representatives of a Nanaimo company came in this spring and are doing hydraulic work on their property. The Messrs. Condit are working a large shaft on their Tom creek and Vital creek properties, and expect to make a good clean-up this fall.

It is generally thought that the certainty of the Grand Trunk Pacific railway building through the near vicinity of Omineca will have the effect of bringing quite a few prospectors and mining men into the country. There is a considerable portion of this district which has never been thoroughly prospected, this mainly being due to the lack of adequate transportation facilities.

A large number of ranches have been located in the Bulkley valley this spring, a number being held by

pre-emption. It is claimed that the valley is one of the most fertile countries in British Columbia, a few of the newly located ranches being enthusiastic over the natural productiveness of the soil and the general appearance of the valley as a grain and stock raising country.

Mr. F. G. Heal, Victoria, has taken up a very large tract of land near Tyeo lake, and is to commence work this summer.

A rush into the valley is anticipated this summer, which will increase the urgent necessity of keeping the trails in good repair, and also the making of new bridges. Some of the bridges are of Indian structure and are in a very precarious condition. A few of the ranchers have received farming implements from Victoria and elsewhere, and no doubt farming will be carried on on a much larger scale throughout the valley next year. Large quantities of coal have been found all through the valley, and a number of claims have been staked off. A few of these are being worked. The coal, in quality, is said to rival that of Nanaimo.

A few ranches have also been located in the Kispisio valley, which runs from twenty to thirty miles northeast of Hazelton. In consequence of very late frosts, the vegetable crop will be very poor this year. A considerable quantity of coal has been found in this valley, one claim being worked with fair results.

## OFF FOR THE WEST

### THE GOVERNOR GENERAL

Left Ottawa To-day for Western Canada. He will visit Edmonton and District

Bulletin Special Dispatch. Ottawa, August 26th.—The Governor General leaves to-day for his trip across the continent. He will take a homestead trip from Edmonton to Q'Appelle with a small police escort.

## BOUNDARY DISPUTE

### QUEBEC CLAIMS

That Newfoundland is Encroaching on Her Territory. Justice Department Investigating

Bulletin Special Dispatch. Ottawa, August 26th.—There is likely to be a boundary dispute between Canada and Newfoundland over the extent of the latter's jurisdiction on the Labrador coast. Newfoundland recently has been collecting duty on goods at the head of Hamilton Inlet, one hundred and fifty miles from the coast, and granting timber licenses. Quebec protests. The Department is investigating.

## TWO DROWNED

### IN ST. MARY'S RIVER

Employees of the Bank of Commerce Meet Death While out Canoeing.

Bulletin Special Dispatch. Sault Ste. Marie, August 26.—A fatal boating accident occurred here this evening in St. Mary's river about one mile from town. Two young men, J. C. Patterson, teller in the Canadian Bank of Commerce, and Herbert D. Hill, Jr., in the employ of the same bank, were drowned while canoeing.

## ON A SHOOTING TRIP

### GENERAL CARRINGTON

In Montreal on his way West. Saw active service in recent South African War.

Bulletin Special Dispatch. Montreal, August 26th.—General Sir Frederick Carrington, of South African War fame, arrived in Montreal to-day from Quebec. He will go west on a shooting trip with Senator Kirchoffer. The General was commander of the Rhodes' Field Force during the war.

## GORED BY A BULL

### MILLET FARMER

Narrowly Escaped Death. Rescued in the Nick of Time and May Recover

On Sunday, August 21, Mr. P. Formby, who lives five miles west of Millet, was tending his yard when he was attacked by a vicious bull and narrowly escaped with his life. The bull threw him to the ground, rolling him

## LOSSES FROM RUST

### EXAGGERATED

The Crops on the Portage Plains, although effected somewhat, will yield well.

Bulletin Special Dispatch.

Portage La Prairie, Aug. 26.—The Ogilvie Milling company's report of the wheat prospects in this district has caused great surprise to the farmers of the plains.

The report gives the estimated yield at fifteen bushels to the acre and states that rust damaged the crop to the extent of fifteen per cent of the total crop.

A careful canvass of the farmers in the district goes to show that the estimate of the damage is greatly exaggerated; certainly not more than ten per cent at the outside being affected, while the average yield of wheat will be up to twenty bushels to the acre.

## QUEBEC FARMER

### MEETS HORRIBLE DEATH

Kicked by a Horse and the prong of a Fork he carried penetrated his neck.

Bulletin Special Dispatch.

Montreal, August 26th.—John McDonald, a farmer of Little Rideau, Quebec, was yesterday kicked by a horse and a prong of a fork driven into his throat. Although almost dying he managed to crawl home, where he started to write an account of the accident, but his suspicions should fall on any of his neighbours.

Death overtook him before he completed his task.

## LARGE CAR WORKS

### FOR MONTREAL

Shops will give Employment to Ten Thousand Men. Will manufacture Railway Machinery

Bulletin Special Dispatch. Montreal, August 26th.—The Simplex Railway Appliance Company announced to-day that they had purchased forty acres of land at Montreal, west and fronting on the Grand Trunk Railway, and will immediately erect a plant that will afford employment for ten thousand men.

The company, which will have different shops for the manufacture of steel springs and other steel products proposes to erect a large plant for the construction of railway cars.

Negotiations are also being completed for the organization of the Canadian Car Co., which will also erect a large plant on the outskirts of the city.

over and over and would undoubtedly have killed him had not Mrs. Formby come to the rescue. She succeeded in attracting the attention of the bull for a length of time, sufficient for Mr. Formby to roll to a place of safety.

Dr. Baker, of Millet, was hastily summoned, and upon arrival found Mr. Formby severely injured and in great pain. Two ribs were broken, and a fragment from one of the broken ribs had penetrated the left lung. The body and legs were literally covered with wounds and bruises.

Although the injuries are of a serious nature, there is hope for his recovery. The doctor is now attending to his wounds.

## New Ads.

## REVILLON BROTHERS, Limited

## WHEAT RUST

The reports of damage by rust on wheat in the Northwestern States and Manitoba are so general and persistent as to affect the prices. The trouble is unknown in this district, but it is well to know what the disease is like. Bradstreet describes it as follows:—

"A. L. Russell has compiled the following interesting information respecting rust: Wheat rust (*Puccinia graminis*) is a fungus disease usually more severe in hot, wet seasons. In the spring it begins growth on plants other than wheat, preferably barley leaves. The spores from this spread to the wheat fields, where they quickly develop and enter the wheat leaves tissues. About harvest time the second crop of spores is produced. These are the red spores, and from this the name of red rust comes. Later another set of spores develops, usually in the stubble and sometimes along the leaves, and these are seen in long black rows of spores, giving the name of black rust. The last stage is the dormant or winter stage, under which the fungus passes the winter. There are two other kinds, one the *Puccinia rubigovora*, which is not an important variety, and another variety, *P. coronata*, attacks oats. Very little has been done in suppressing the disease, and some wheat is more susceptible to its attacks than others. As a rule, hard red wheat ripening early appears to be best able to combat the rust."

Wall Street Journal says: "Rust on wheat is a kind of a fungus growth which affects the leaves and stalks, making them red or black, known as the red and black rust; red rust, because of its brownish appearance similar to that on iron; black rust, because it is dark, almost black. It takes the life out, therefore the grain does not fill or develop."

## Aren't Anxious to Meet Red Deer

The Red Deer Advocate in its last issue says:

"Calgary or the Fort next. The Calgary papers talked about their team playing Red Deer on their return and yet Red Deer has not received a reply to the challenge sent. There is a cup up at the Fort that many Red Deer baseball enthusiasts would like to see captured. But Fort Saskatchewan is anxious to keep it and the surest way of gratifying that desire is to ignore the challenges sent so we have not heard from them yet."

## Baseball Tournament

Herald:

Calgary people will likely have an opportunity on Labor Day to see the championship baseball team perform. The committee on the Labor day celebration have offered a purse of \$125 for a game between the champions and some other team. The local club are trying to get a team willing to play them and are having difficulty. It is hoped that the Red Deer boys may be induced to come. There will likely be a baseball tournament also, but the afternoon game for which \$125 is offered, will not be counted as one of the tournament contests.

## Dollar Wheat

Commercial: For the first time since the downfall of the latter corner in 1898, wheat, for immediate delivery in Chicago, went above one dollar per bushel two weeks ago, and this has since been paralleled. Last year the price went up to 93 for a moment, in September, but this was a piece of Arthur's corner manipulations; it was down to 73 3/4 a few weeks later. In 1902 wheat went up to 95 on the last day of September; but this too was purely a fight over speculative contracts. The price was 80 cents the week before, and 'December wheat' sold at 68 1/2 on the very day when 'cash wheat' commanded its excessive price. Between that date and the early days of June, 1898, wheat never touched even 90 cents in the Chicago market, and it went, in each of the intervening years, almost to 60 cents.

## Alberta Coal For B. C.

Commercial:

If a favorable freight rate can be secured, anthracite coal from the Bankhead collieries at Banff will be on sale in Vancouver shortly. These collieries are operated by the Mineral and Metallurgical department of the Canadian Pacific Railway, and the fact that the product is anthracite of a high grade is interesting to Vancouver people, who have hitherto used bituminous coal. Anthracite has been imported into the city, but it was brought from Pennsylvania, and the high price of \$17 per ton precluded the use of it to any extent.

Mr. William Whyte, second vice-president of the C. P. R., took up this fuel question for the West, and as a result the collieries are now being actively operated. The coal is pronounced equal to that from Pennsylvania, and cities in the interior are looking forward to having it on sale within a week or two. What will be an influence in the question of bringing it to Vancouver will be that so many cars are now hauled empty, to the coast from over the mountains. These cars are needed principally for the shipment of lumber, and at present train loads of them are brought in. It is in these that the coal could be brought to Vancouver, which would be a question in the matter of haulage.

It is stated that the price in Vancouver of the anthracite would be \$10.50 a ton, which would be a very reasonable figure in comparison with that of \$6.50 now paid for bituminous.

## BY-LAW NO. 278

A By-Law to provide for the raising of \$8,000 to meet the portion of the costs to be borne by the Municipality at large of an easterly extension of Jasper Avenue.

WHEREAS the Municipal Council of the Town of Edmonton, deem it expedient to extend Jasper Avenue easterly from a point commencing at Lot Thirty Eight (38) in Block Two (2) in River Lot Twelve (12) of the Edmonton Settlement and running to Lot Six (6) in Block Four (4) in River Lot Fourteen (14) of the said Settlement;

AND WHEREAS the Municipal Council deem it expedient that the said work should be undertaken as a Local Improvement and that the costs thereof beyond the sum of \$8,000.00 should be raised by Special Frontage Assessment and that the cost thereof to the extent of the said sum of \$8,000.00 should be borne by the Municipality at large;

AND WHEREAS if the said work is to be undertaken by the Municipal Council as aforesaid it is necessary that authority be obtained to raise the said sum of \$8,000 by the issue of debentures for a sum not exceeding that amount;

AND WHEREAS it is expedient that the amount to be borrowed for the purpose aforesaid if such authority be accorded, should be payable during the period of twenty years from the date of the debentures to be issued therefor, and should bear interest at a rate not exceeding five per cent. per annum and either (1) that the same should be repayable during the period of twenty years; or (2) that the principal shall be repayable at the end of twenty years from the said date (provision being made for the payment thereof by the erection of an equal annual sinking fund) and the interest annually;

AND WHEREAS the amount of the whole rateable property in the Municipality according to the last revised assessment roll, is \$3,958,748.

AND WHEREAS the total amount of the general debt of the Municipality exclusive of local improvement debt, secured by special assessment, and outside the debt due under the current expenses of the year is \$308,237.39.

AND WHEREAS it is expedient that this by-law should take effect on the 15th day of September next.

NOW THEREFORE the Municipal Council of the Town of Edmonton, duly assembled enact as follows:

1. The Mayor and Secretary Treasurer of the Town of Edmonton are hereby authorized and empowered to borrow for the purpose aforesaid, on half of the Municipality a sum or sums not exceeding in the aggregate the sum of \$8,000 and to issue one or more debentures of the Municipality for such sum or sums so borrowed.

2. The said indebtedness shall be paid during a period of twenty years from the date of issue of such debenture or debentures, and shall bear interest at a rate not exceeding five per cent. per annum, and shall, as the Council shall deem expedient, be repayable, either (1) in such manner that each instalment of principal and interest shall be equal in each year of the said period of twenty years; or (2) in such manner that the principal shall be paid at the end of the said period of twenty years (an equal annual sum by way of sinking fund being raised annually during the said period sufficient to meet the principal at maturity) and the interest thereon, yearly.

3. During the currency of the said indebtedness there shall be raised annually by special general rate on all rateable property in the Municipality at the same time and in the same manner as the ordinary general municipal taxes and a sufficient sum to meet the amount of the annual instalment of principal and interest or the amount of the equal annual sinking fund and the annual interest, as the case may be, payable in each year in respect of the said indebtedness.

4. This by-law shall take effect on the 15th day of September next.

5. The votes of the electors for and against this by-law shall be taken at the Council Chamber in the Fire Hall in the Town of Edmonton, on the 12th day of September, 1904, between the hours of 9 a.m. and 5 p.m.

6. George Johnstone Kinnaird is hereby appointed Returning Officer, and Kenneth Collins, Deputy Returning Officer to take the votes at the time and place aforesaid.

7. The said Council Chamber at the hour of 5.30 p.m. of the said 12th day of September, 1904, is hereby fixed as the place and time where and when the returning officer shall sum up the number of votes given for and against this by-law.

PASSED provisionally in Council, at Edmonton this 16th day of August A. D. 1904.

WM. SHORT, Mayor.

GEO. J. KINNAIRD,

Secretary-Treasurer.

PUBLIC NOTICE is hereby given that the foregoing is a true copy of a proposed by-law which will be taken into consideration by the Municipal Council of the Town of Edmonton, after being voted on by the electors; that the date of the first publication of the said proposed by-law is the 19th day of August, 1904, in the "Edmonton Bulletin," a newspaper published in the town of Edmonton, and that the votes of the electors shall be taken upon the said proposed by-law on Monday, the 12th day of September, 1904, between the hours of 9 a.m. and 5 p.m. at the Council Chamber, Edmonton.

GEO. J. KINNAIRD,  
Secretary-Treasurer.

## The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 16, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following upon and cultivation of the land in each year during the term of three plans:

(1) At least six months' residence years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the said Act, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land, owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with cultivated 30 acres of his homestead, buildings for their accommodation, and have besides 30 acres substantial.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them.

Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior.  
N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

## LOCAL

—The High and Public schools open on Monday next, August 29th.

—Several of the head men of the International Harvester company will arrive in the city this evening.

—The Regina fair, which closed in that city the last of last week was one of the most successful in the history of the association.

—The new Fort Saskatchewan public school on Griesbach avenue is nearing completion. It will be opened about the middle of October with a staff of three teachers.

—Maryo, B.C. Leader: Wednesday was payday at the St. Eugene mine and \$25,020 was the exact amount of money distributed amongst the employees. While business was good, the town was quiet and orderly.

—Mr. Percy Hook intends to give another of his piano recitals in the near future. Mr. Hook is musical director of Alberta college and will have his studio in the college building when it is finished.

—C. Bourgeois, of St. Albert, has two hundred acres of splendid oats, one hundred acres of which is being cut as quickly as two teams can take it down. By the time the first half of the crop will have been cut, the other hundred acres will be ready. The crop is one of the best ever grown in that settlement.

—Colborne Enterprise, August 11.—Mr. R. B. Walt met, with a painful accident one day recently. He went to the pasture field for his horse and while riding from the field another horse ran up and kicked him, breaking his leg in two places. Mr. Walt is a former Edmonton man.

—Saskatoon Phoenix, August 19th: The crops are ripening rapidly. Wheat cutting will be general throughout the district next week. It is estimated that the yield will be from 25 to 30 bushels to the acre, and the quality all first class.

—The special train of the Grand Trunk Pacific directors and officials left Edmonton this morning for Strathcona. They were driven about Strathcona and left for the south to continue their tour early this afternoon.

—The Misses Stewart and Reeves will open a private school for primary work in All Saints' schoolroom. These ladies have had considerable experience and come well recommended. The subjects will include reading, writing, arithmetic, calligraphy and such elementary work in other subjects as may be found advisable. The school opens on Monday next at 9.30 o'clock.

—Mr. C. Gallagher entertained J. D. McArthur, the railway contractor, Alex Calder, and A. McDonald, manager of the Coe Commission Co., all of Winnipeg, to a very pleasant three hours' drive around the city, and in the evening Mr. J. H. McPhee placed his automobile at their service, both of which were very much appreciated by the visitors. Messrs. McArthur and Calder left for Winnipeg this morning and Mr. McDonald, who has been here since Tuesday leaves for the south tomorrow.

## PERSONAL

Chas. E. McManus, took a business trip to Wetaskiwin this morning.

A. B. Agar, of Lion's Head, Ontario, arrived in the city last night.

A. S. Going, Grand Trunk Pacific engineer, is in the city to-day.

Miss Bessie Phillips has returned from Sandy Lake, where she spent a few days' camping.

Wm. Rae, principal of the Edmonton High School, returned to Edmonton last night from spending his holidays in Ontario.

Mr. Johnston, of the Edmonton High School staff, returned to the city last night from spending the summer holidays in different Ontario points.

Mr. and Mrs. J. E. Wallbridge, of Edmonton, are spending a few days in Winnipeg before leaving for Edmonton.

R. E. Chenier returned to Winnipeg this morning after a visit to his uncle, J. C. Chenier, of Edmonton.

John E. Madden, major in the Salvation army from Buffalo, has been visiting his father at Fort Saskatchewan with a view of moving there in the near future.

Miss McCartney, of the Edmonton public school staff of teachers, returned last night from a holiday trip to British Columbia.

Hugh Campbell, of McIntosh, and Campbell, is spending a few days in Winnipeg on his way home from the east.

## STRATHCONA WINS

The Strathcona lacrosse team journeyed to Leduc last evening and played a game with the team there. It resulted in a win for the Strathcona team by a score of 6 to 2.

## SCHOOL OPENING.

The Public school reopens on Monday, August 29th, and the principal requests that all the students be in attendance the first day in order that they may be assigned to their proper rooms. The pupils who were in Standard VI. will go to Mr. Ramsay's room. All other pupils will meet in the rooms they were in previous to vacation.

Parents are reminded that children just beginning school must start immediately after vacation or they cannot be admitted till the first of November.

Edmonton High school opens on Monday, August 29th.

## CUTTING IS GENERAL

C. W. Sutter, Dominion Immigration agent, returned to the city last night from an extensive trip through the St. Albert, Morinville, Egg Lake and Independence districts. He was accompanied by Rudolph Bach, German journalist, who is making his annual tour of the west. In every direction the country is looking magnificent. Barley has been nearly all cut and is a first-class crop, the sample being splendid. Wheat cutting is in progress in many places and will be general in a couple of days. Dan Maloney, at St. Albert, has his barley all cut and is cutting wheat. Wm. Cust of St. Albert is busy cutting. Oats are ripening fast and will be ready for the binder in two or three days. In some sections where grain could now be cut, the farmers are leaving it to get the advantage of a couple of days more of this beautiful, sunny weather.

Mr. Sutter leaves this afternoon, accompanied by Mr. Bach, for an extensive trip through the Stouy Plain district and thence to the Glory Hill settlement.
